

VARUN J

UI/UX DESIGNER | ENTERPRISE B2B PRODUCTS & COMPLEX WORKFLOWS

Bengaluru, India | +91 77605 60455 | varunj93478@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

UI/UX Designer with 5+ years of experience designing enterprise B2B products, data-heavy portals, and multi-role workflow systems. Translates roles, rules, states, and business requirements into usable web and mobile experiences. Works across information architecture, interaction and UI design, prototyping, reusable patterns, developer handoff, implementation review, and design QA.

EXPERIENCE

UI/UX Designer (official designation: UI Designer) | Crecientech Infosystem

Oct 2020 – Present | Bengaluru, India

Designed enterprise products across vehicle operations, inclusive employment, investment collaboration, property operations, HR, and visitor management.

Mapped multi-role workflows, permissions, statuses, validations, dependencies, and handoffs into responsive web and mobile interfaces.

Produced user flows, wireframes, prototypes, high-fidelity UI, reusable patterns, and developer-ready specifications in Figma.

Partnered with stakeholders and developers through implementation; reviewed builds, documented UI inconsistencies, and supported design QA.

Applied frontend knowledge and existing component constraints to make practical, implementation-aware design decisions.

SELECTED PRODUCT WORK

Harbinger Motors — *Vehicle configuration, dealer delivery, PDI, and UI QA*

Designed connected HBR and dealer portal workflows for configuration, quotation readiness, vehicle delivery, inspection, warranty, and retail delivery.

Clarified dependency rules, invalid combinations, role ownership, statuses, and next actions; structured eight-step PDI forms around JSON-driven behavior.

Reviewed the deployed UI and identified a VIN-validation mismatch between the interface and the existing vehicle data source.

Aadivara — *Inclusive employment events across mobile, web, and offline workflows*

Designed candidate, administrator, employer, partner, and volunteer experiences across connected registration, event, interview, and check-in workflows.

Defined accessible stepped registration and offline QR/manual check-in with syncing, completion, and recovery states.

InventFunds — *Founder, funder, and specialist collaboration platform*

Designed responsive web and mobile flows for project creation, discovery, evaluation, collaboration, permissions, and NDA states.

Reviewed Angular/Ionic implementation behavior and documented UI corrections for the delivery team.

ADDITIONAL PRODUCT WORK

Property Care — Responsive property discovery, owner/franchise onboarding, posting hierarchies, requirements, and enquiry continuity.

HCM Café and Visitor Management — Configurable HR dashboards, attendance and leave, invitations, arrival, check-in, exceptions, and check-out.

SKILLS

Product and UX: Enterprise UX, information architecture, workflow design, interaction design, UI design, responsive design, data-heavy interfaces, design systems, accessibility fundamentals

Delivery: Figma, FigJam, prototyping, developer handoff, design QA, implementation review, UX documentation, Jira, Notion

Technical collaboration: HTML, CSS, React and Next.js fundamentals, Angular/Ionic collaboration, JSON-driven UI patterns

EDUCATION AND PROFESSIONAL DEVELOPMENT

Bachelor of Computer Applications (BCA)

Interaction Design Foundation coursework — UX research, visual design, design thinking, and UI patterns

Diploma in iSMAC — Java and Android, IIHT (2016)

Languages: English, Kannada
